

## **Assembly Operators**

### **About Us**

At Joyce/Dayton Corp, our employees have opportunities to work on products that are used in a wide variety of industries throughout the world. Joyce/Dayton is the premier manufacturer of Screw Jacks, Actuators, and Lifting Equipment in North America. It has remained in continuous operation since it was established in 1873. We look for people who are reliable, adaptable, approachable, trustworthy, curious and results driven. Our team in **Portland Indiana** is growing!

### **What Will You Do?**

You will be part of a growing team of assembly operators who use your hands and tools to build products in a safe manner. This includes interpreting prints and engineering specifications, retrieving parts and building the product in a team oriented atmosphere, completing relevant documentation. We offer an extensive training process with the ability to move to the third shift as needed.

### **What does it take to be a part of our team?**

- High school diploma or equivalent/GED and 1 year of experience in a manufacturing environment
- Strong Mechanical aptitude
- Basic computer skills
- Ability to read and interpret blueprints and drawings
- Strong written and verbal communication skills
- Commitment to quality objectives
- Prior crane and forklift experience
- Great Work Atmosphere

### **Shift Differential: \$2/hr for third shift**

**What do we offer in benefits?** We offer an attractive compensation and benefits package, to include hourly rate, incentive bonus opportunities, 10 Company paid holidays, vacation and benefits including medical, health savings account, dental, vision options, short term disability, life insurance and 401K plan with employer matching contribution.
