

Manual Machine Operators

About Us

At Joyce/Dayton Corp, our employees have opportunities to work on products that are used in a wide variety of industries throughout the world. Joyce/Dayton is the premier manufacturer of Screw Jacks, Actuators, and Lifting Equipment in North America. It has remained in continuous operation since it was established in 1873. We look for people who are reliable, adaptable, approachable, trustworthy, curious and results driven. Our team in **Portland Indiana** is growing!

What Will You Do?

You will be part of a growing team of manual machinists who set up, troubleshoot and operate gear manual machines in a team oriented atmosphere.

What does it take to be a part of our team?

- High school diploma or equivalent/GED and **5 years of CNC operating and setup experience.**
- Understanding of feeds and speeds applied to CNC machining.
- Shop math including trigonometry with a strong mechanical aptitude.
- Ability to read and interpret blueprints and drawings
- Basic computer skills and set-up capabilities
- A solid understanding of general machining
- A good understanding of geometric dimensioning and tolerance. (GD&T)
- Ability to work overtime (50-60 hours per week) as needed
- Should possess proper tools for the trade.
- Great Work Atmosphere

Shift Differential: \$2/hr for second or third shift
